MEMORANDUM FOR: Colonel White

1. All components except OTR have concurred in our staff study on promotions in supergrades. Training has delayed its comments because no one is sure what Matt Baird's views would be. The draft paper was forwarded for concurrence on 31 August and Matt left very shortly thereafter.

2. DD/P personally signed concurrence.

3. AD/C concurred but commented that he disagrees that temporary promotions should be effected even in the instances recommended in the study.

4. DD/I likewise concurred and recommended that specific mention be made of the desirability of using temporary promotions when positions are filled on a rotation basis. Since Recommendation 6.a. would permit precisely this kind of action, it would seem to be unnecessary to spell it out.

5. Recommend that the staff study now be forwarded, and directed first to General Cabell with the transmittal note attached.
